**Item 2.05. Costs Associated with Exit or Disposal Activities.**

On January 7, 2020, the Board of Directors of Solid Biosciences Inc. (the “Company”) approved a plan to reduce the Company’s workforce by approximately one third. These reductions are expected to be completed by the end of first quarter of 2020. This plan is designed to create a leaner company focused on advancing SGT-001, a gene transfer candidate for the treatment of Duchenne muscular dystrophy. The Company plans to focus on conducting its analyses of SGT-001 to determine how to address the previously-announced clinical hold on IGNITE DMD, the Company’s Phase I/II clinical trial of SGT-001, and resume dosing.

The Company expects that this plan will result in a reduction of the Company’s corporate expenses and, based on its current operating plans, extend the Company’s cash runway into 2021. The Company expects to incur a charge in the first quarter of 2020 of approximately \$2.1 million related to the reduction in force, consisting of severance, benefits and related costs. The Company expects that approximately \$1.2 million of this amount will be paid during in the first quarter of 2020, approximately \$0.5 million will be paid in the second quarter of 2020 and the balance through the first quarter of 2021.

In addition, the Company and Mr. Amorrortu intend to enter into a Consulting Agreement (the “Consulting Agreement”), to be effective as of January 15, 2020, pursuant to which Mr. Amorrortu will assist with the transition of his duties to the Company’s executive management team.
